

Top Recycling Tips

- Please remember to put all your recycling into your green bin clean, dry and loose. If it is wet, dirty or in plastic bags it cannot be recycled.
- If you flatten cardboard packaging before putting it in the bin, you will have extra room for all your recycling.
- Save water! Use your old washing up water to give your tins and plastic bottles a quick rinse before recycling them.
- All your household plastic bottles can be recycled, but we are not able to recycle the lids as they are often made from a different type of plastic. Please remove the lids before recycling your plastic bottles.
- Many people keep two containers in their kitchen - one for recycling, one for rubbish. This makes it easier to separate your recycling.
- Every year in the UK, billions of plastic bags are thrown away. Why not try reusable shopping bags instead? Remember to keep them in handy places such as your car or in your handbag so they are always easy to find!

Kerbside Recycling Collections 2010

Diary of collections for the year ahead

Every household is either on a green or purple collection week. If you don't know which one you are on please call our contact centre on 01256 844844 who can inform you.
