### Consider:

- Was discrimination or disadvantage identified?  
  - Yes ☑
  - No ✗

- Was the service promoting equality?  
  - Yes ☑

- Could the service be improved in promoting equality?  
  - Yes ☑

- Are the customers' needs understood and met?  
  - Yes ☑

- Is there good evidence and/or reasoning to support the decisions on whether groups are/aren't affected?  
  - Yes ☑

- Does the summary report properly reflect the key findings of the assessment?  
  - Yes ☑

- Is the summary report clear and easy to understand?  
  - Yes ☑

- If improvements have been identified, do they reflect and deal with the key findings?  
  - Yes ☑

### The decision is to:  
- Validate ☑  
- Not validate ✗

The reason/s for the decision are: please give details below

- Validation given – information correct
- Not validated – decision not to proceed as EIA incorrect
- Not validated - screening error
- Not validated – research/consultation error
- Not validated – improvement error

The Assessment

As part of The Malls refurbishment Blue Badge holders need a plastic card to provide access for free parking. Currently this scheme is administered by a team at The Malls, however, it is planned that the administrative activity becomes the responsibility of the council.

Customers will be able to continue putting application forms in the freepost box at The Malls, with these being delivered to the council on a daily basis; customers can also bring their application to the council offices or put in the general post.

The customer experience at implementation will not differ from the service experienced now; it is the back office process which is changing, although the turnaround times of card despatch may be shortened due to a review of the heavily manual process currently undertaken. In the medium to longer term customers should experience greatly improved services, for example cards could be produced whilst customers wait at the council offices, rather than being sent in the post.

Assessment Findings

The assessors reviewed all aspects of the move of administration and found no negative impacts for customers and were able to highlight some improvements to the current procedures.

Justification

The group decided to complete Form A to scope the proposed changes for completeness to be sure that none of the Equality strands would be affected by the changes.
Stage 6

</table>

The Assessment

The changes to the back office process for parking passes for blue badges were assessed by the above officers.

The Customer/Customer Group

Assessment Findings

The key findings of the assessment were that in the initial stages customers would not experience any change in service provision, although it is anticipated that turnaround of the card production may be shortened due to the process review that has taken place as part of the proposed implementation.

Recommendations

As no impacts were discovered, validation is recommended.
