Dear David

I write regarding the above and further to your enquiry.

Please find attached correspondence sent to SW Trains and BDBC regarding the potential for additional parking on the St Cross-owned land. The latest plan submitted with the current outline planning application indicatively shows 50-60 spaces could be provided. Given that this plan is for illustrative purposes only, it is reasonable to conclude that additional spaces could be provided within the application site to meet an identified local need. I would be happy to discuss this further with the Council if it was felt that there was an appetite for additional parking.

If you have any other questions or comments please don't hesitate to contact me

Kind regards

Richard
