

Basingstoke and Deane Local Plan Examination

MF29 Inspector's Note to the Council on Policy SS4: Ensuring a supply of deliverable sites

The Inspector made reference to some alternative suggested wording for Policy SS4 during the discussion on Issue 10: Environment on 10 November 2015. The suggested wording is set out in red type as follows:

SS4: Paragraph 2

To take account of water quality matters in line with Policy EM6 and where monitoring indicates a likely deterioration in individual elements band status of the borough's water bodies, ~~the council will resist granting further planning applications where this would~~ **development proposals in such areas will have to demonstrate that they would not** exacerbate such deterioration in the relevant catchment. Intervention mechanisms will be required to improve the quality of the relevant catchment prior to the release of any further allocated sites or granting planning permissions.

Mike Fox

Inspector
