

Environment 32

Will the inspector ask for specific action improve to green infrastructure in the Lodden Valley rather than just quotes from various polices within the plan and the green infrastructure policy?

Will you also consider SS3.10 on the west of Basingstoke. In particular the likely separation of the existing grassland SINC of Old Down Park from the strategic gap shown in map 7a in contravention of these policies.

Environment 3.3

It seems unclear from the plan whether water infrastructure for Manydown SS3.10 is the responsibility of Thames Water or South East Water or whether it is split as in Kempshott. Does this have implications for financing the significant spending which will be required?

Will this also take into account the likely demands of further development to the south?

Is the Sustainable drainage system proposed realistic given the recent flood problems at nearby Buckskin due to a reactivated spring?
