The majority of households had two or more rooms than they needed (58.0%).

Basingstoke and Deane

Indices of Deprivation, 2019

The chart shows Indices of Deprivation data for each domain and both IDACI and IDAOPI. It records how deprived each Lower Super Output Area (LSOA) in the ward was compared with all LSOAs in England. The closer each LSOA is to 32,844 (shown as 100), the lower the deprivation. B&D 010D and 010C were more disadvantaged than the other LSOAs in the ward (LSOA boundaries are shown on the ward map).

Forecast Population and Dwelling Change

1,980 more people

Expected to be resident 2020 to 2027

1,052 more dwellings

Expected to be built between 2020 to 2027

255 more older people

(Aged 65 and over) expected by 2027

Small Area Population Forecasts show that the overall population is expected to increase (+28.7%), a long with dwellings (+35.4%) and older people (+17.8%).

Rural and urban, 2011

Winklebury and Manydown is located in the west of Basingstoke town and its population is classified as living in a mainly urban area in the ONS Rural - Urban Classification 2011.

Jobs Available by Sector, 2019

Estimated to be 1,150 jobs in the ward.

Main sectors:

Education (19.8%)

Health (11.7%)

Arts, entertainment, recreation and other services (10.8%).

Council tax property build period, 2020

Winklebury and Manydown had a larger percentage of dwellings built in the mid to late 20th Century compared to Basingstoke and Deane as a whole, with 66.1% built from 1955 to 1972, compared to 27.1% for the borough overall.

House prices and sales, 2004-2019

There were 80 home sales in 2019, the lowest figure since 2013. This was 2.7% of the borough's house sales. One LSOA within the ward (B&D 013E) had a median house price in 2019 of £477,500, compared to the borough median of £305,000. Prices in this LSOA have moved above the borough average in recent years.

Unemployed Benefit Claimant Count, 2013 to 2021

The number of unemployed benefit claimants peaked in February 2021.

Ward Map

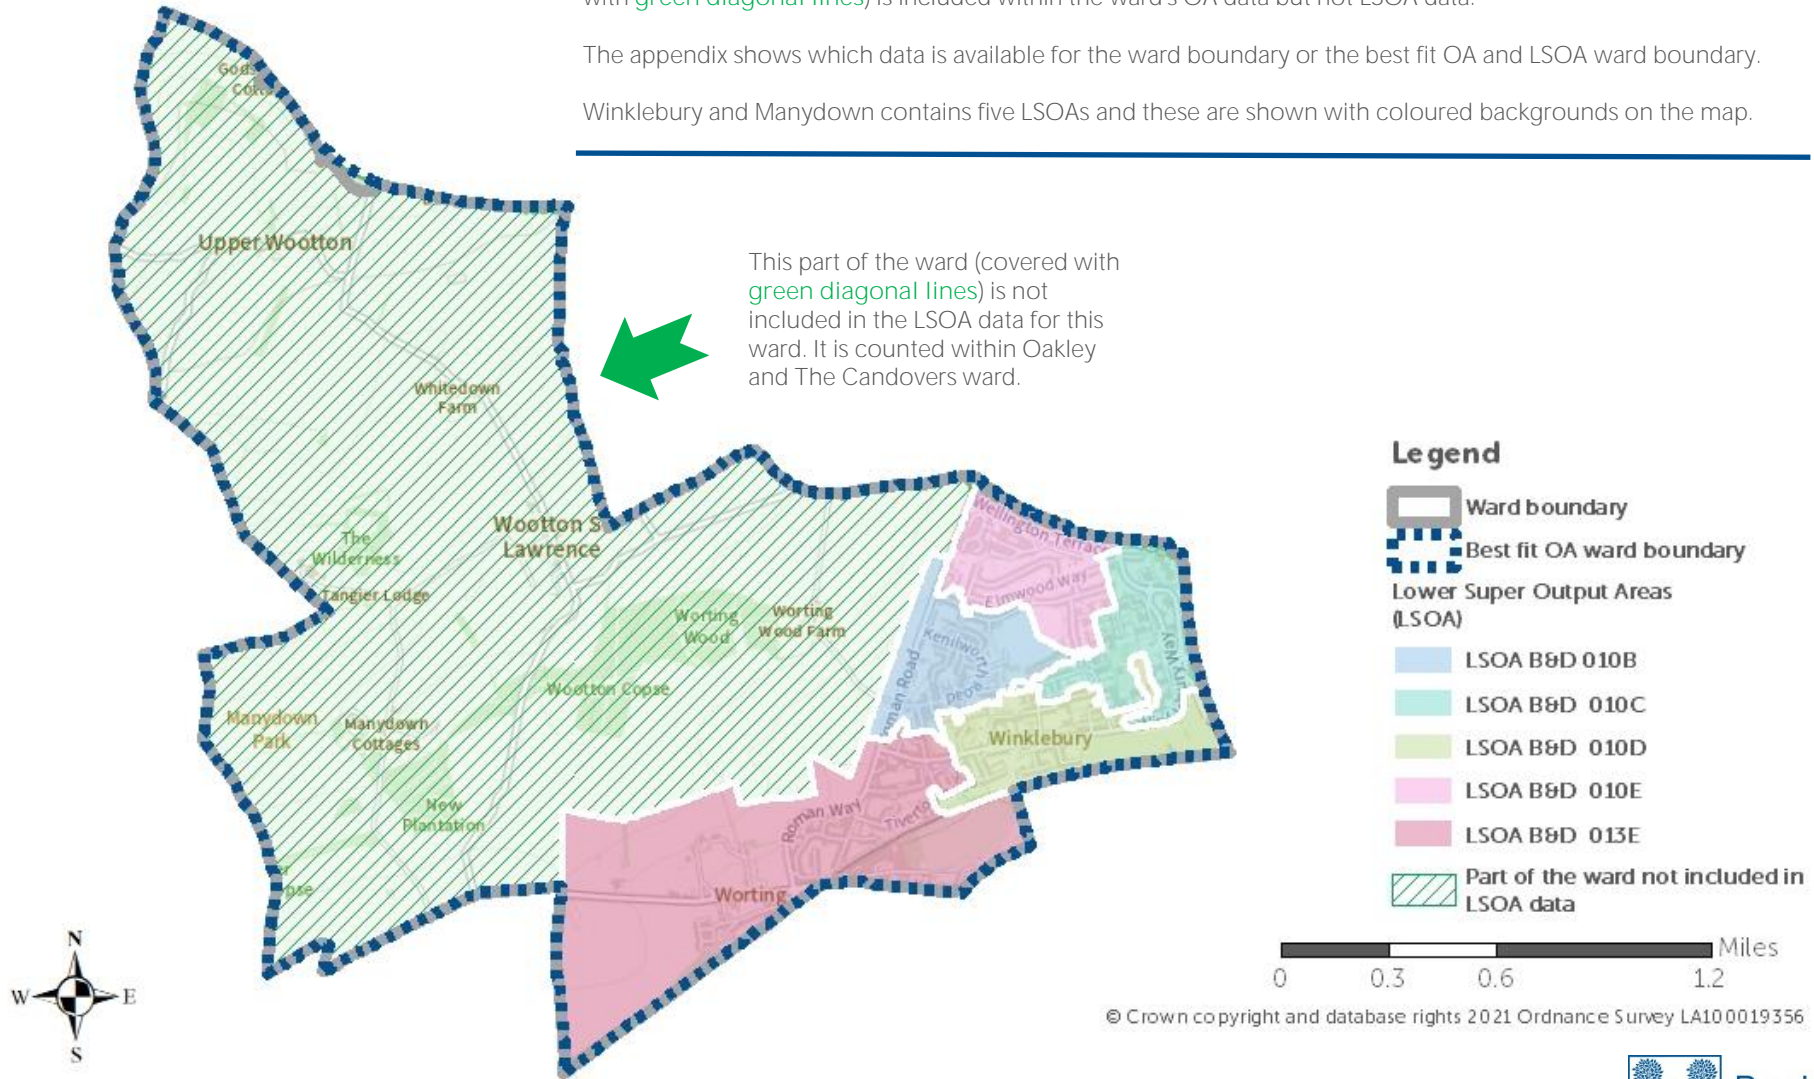

The ward boundary is shown in grey.

Due to ward boundary changes, some data is only available for output areas (OAs) and lower super output areas (LSOAs) that best fit the ward area. An OA and LSOA is allocated to a ward if its population weighted centroid falls within the ward.

The OA boundaries and ward boundary are aligned for this ward, but the LSOA boundaries are not aligned with the ward boundary. This means that the part of the ward containing Wootton St Lawrence and Upper Wootton (covered with **green diagonal lines**) is included within the ward's OA data but not LSOA data.

The appendix shows which data is available for the ward boundary or the best fit OA and LSOA ward boundary.

Winklebury and Manydown contains five LSOAs and these are shown with coloured backgrounds on the map.

Appendix

Notes

Numbers are rounded to the nearest five people/dwellings/households/cars in the majority of census data topics.

The accompanying ward profile Excel file contains the raw data used this ward profile and comparisons to the borough, county, region and national average.
